PROFESSIONAL SUMMARY

Accomplished **Java Developer** at D2RAILABS with expertise in Core Java, Spring Boot, REST APIs, Microservices, and Hibernate/JPA, enhancing client applications through scalable solutions, API integration, and agile methodologies. Strong in communication, collaboration, and problem-solving, with proven experience mentoring 2,000+ students. Recognized for technical clarity, leadership, and driving operational efficiency.

TECHNICAL SKILLS

- **Programming Languages:** Core Java, C, Python, SQL
- **Frameworks & Tools:** Spring Boot, JUnit, Git, Jenkins
- **Cloud & Automation:** AWS Fundamentals, Power Automate
- **Data & Analytics:** Power BI, Google Data Analytics
- **Web Technologies:** HTML, CSS
- **IT Service Management:** ITIL

EXPERIENCE

JAVA DEVELOPER, 06/2025 - Current

D2RAILABS, Chennai

- Developed spring boot applications to enhance user experience for clients.
- Collaborated with senior developers on software design and code reviews.
- Debugged and resolved issues in existing spring boot applications efficiently.
- Assisted in the integration of APIs to improve system functionality.
- Participated in daily stand-up meetings to discuss project progress and challenges.

KNOWLEDGE TRANSFER SPECIALIST, 12/2023 - 05/2025

Freelance

- Delivered live programming workshops on C, Java, and Python with emphasis on DSA and hands-on coding.
- Mentored students on placement preparation, focusing on technical interviews, coding assessments, and Leet Code challenges.
- Developed customized content and tracked student progress to enhance learning outcomes.

TECHNICAL TRAINER, 08/2023 - 10/2023

Terv

- Conducted high-impact training sessions for 2,000+ engineering students across multiple colleges.
- Designed structured learning modules based on real-world scenarios and corporate expectations.
- Received 100%+ positive feedback for engagement, delivery, and technical clarity.

INTERN, 02/2023 - 05/2023

Virtusa Consulting Services Pvt. Ltd.

- Assisted in automating IT ticketing workflows, enhancing operational efficiency.
- Collaborated with IT teams to understand and improve enterprise-level support systems.
- Gained exposure to agile methodologies, ticketing systems, and automation practices.

EDUCATION

K.S.R College of Engineering, Tiruchengode, 01/2023

Bachelor of Engineering (B.E.): Computer Science

GPA: 8.67 / 10

<https://kamalikumar123.github.io/portfolio/>

<https://leetcode.com/u/kamali1212/>

CERTIFICATIONS

- **Java Programming & OOPs** - Great Learning
- **Aws partner accreditation:** Cloud economics and business essentials - Microsoft
- **Google Data Analytics** Certificate – Coursera
- **Microsoft Azure AI** Fundamentals: AI Overview - Microsoft Learn (2025)
- **Introduction to Machine Learning** – Microsoft Learn (2025)
- **ITIL Foundation Certificate** - Certificate No: GR671502485KK

PROJECTS

- **Online Feedback Form** – Developed a fully responsive web-based form to replace manual feedback collection, enabled dynamic data storage and structured feedback analysis.
- **Technologies Used:** HTML, CSS, PHP, SQL. **Result:** Reduced processing time by 40%, significantly improving feedback collection rates.
- **Delay-Sensitive Provisioning in Edge Networks** – Engineered a secure file-sharing platform for low-latency mobile and edge environments, implemented optimized algorithms for data prioritization and secure communication.
- **Technologies Used:** Java, NetBeans. **Result:** Achieved a 20% decrease in latency, improving data delivery performance.
